## GOAL

Design and produce state of the art web based software solutions in a collaborative small business environment.

## EXPERIENCE

### A. COOK ASSOCIATES INC., THETFORD, VT 1996-2009, 2014-2015

Chief architect and developer of *Store Services Software*, a suite of facility management applications serving the supermarket industry, currently in use at numerous corporate headquarters and thousands of retail locations across North America. Key person responding to client demands for new functionality. Multi-disciplinary duties included derivation of requirements, specification, coding, testing and documentation of major new releases of central office modules and browser-based intranet modules deployed at retail store locations.

### PINÈDE CONSEIL, DOLLARD-DES-ORMEAUX, QC 2010-2014

As sole proprietor, performed consulting for A. Cook Associates, Inc. Designed and coded several fully responsive web sites for non-profit organizations.

### THE SUPPORT GROUP INC., NEWTON, MA 1993-1996

Dispatched as an expert consultant to serve on a variety of corporate development teams. Designed and coded telecom elements critical to the success of two major sales automation systems: *TeamMate* for American Express Card Services and *The Configurator* for Stratus Computer.

## EDUCATION
